

Welcome to Queens Park!

Introduction to the Family Fun Day - Sunday 26th July 2009

Welcome to the 2009 Queens Park Family Fun Day. On Sunday 26th July we celebrate the park that is the centre of our community. It also marks the start of Swindon's contribution to a national Love Parks Week. We hope there is something for everyone from community stalls to fair ground food, from a bouncy castle to trying your hand at croquet, from an Elvis impersonator to a brass band all in the setting of our wonderful park – a green oasis in our busy town. The fun starts with the opening by the Mayor and Town crier at 11.00am. we look forward to seeing you there!

Organiser: Queens Park Community Council

The community council meets the first Wednesday of the month at the civic offices starting at 7.00pm. All residents are very welcome and the first item on the agenda is any issue a resident wants to bring up. A regular item on our agenda is the Neighbourhood Police team report and this is an opportunity to raise any crime matters. Besides organising local events such as the Fun Day we are a campaigning organisation. A major victory in recent times was persuading Swindon Council to go back to locking the park gates at night. We have a community notice-board in the park and a web site www.queens-park.co.uk

Eastcott Neighbourhood Policing Team (NPT)

New Police team leader Phil May wants to know what you think should be the policing priorities in our area. This is an opportunity to meet Phil, let him know your policing concerns and see a patrol car.

All New: The Town Centre Forum

What are the issues that annoy you – education, parking, highways, litter, facilities, housing, health? Come and let the newly formed group of councillors from the town centre know. Put your "blot" on the town centre that deserves action.

You set the agenda for the meetings that will take place during the year.

FAMILY FUN DAY

Sunday 26th July 2009, 11am-4pm

FREE ENTRY

Queens Park

Welcome to the Queen's Park Family Fun Day

The day is a celebration of Swindon's hidden environmental jewel of the town.
